

New! Patient Benefits Support Program

A simple and easy way to keep informed during the insurance benefit verification process

CND Life Sciences will check your insurance coverage for the Syn-One Test® and Small-Fiber Dx™ and send real-time text alerts when your benefits check is complete. We'll let you know your estimated out-of-pocket cost and remind you to schedule your skin biopsy.

How it works:

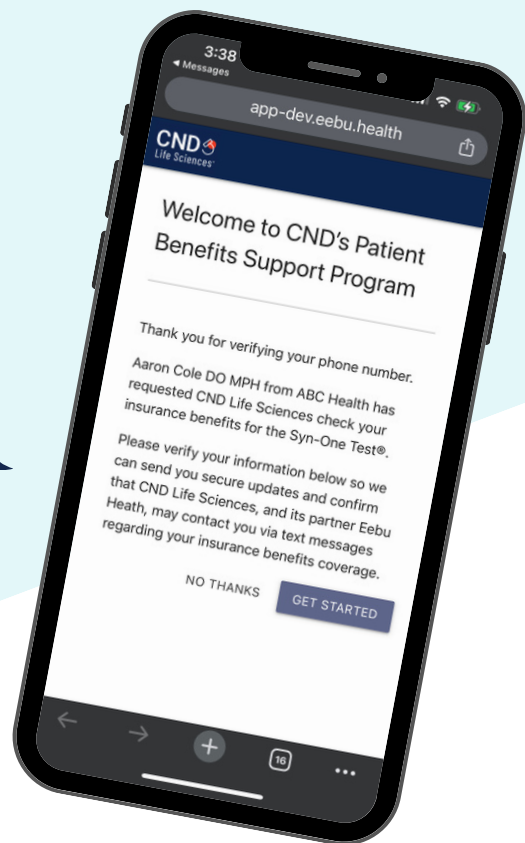

1. You'll receive an enrollment text message
2. Verify your phone number
3. Verify your last name and date of birth
4. We'll send you a text message when your benefits check is complete
5. You'll get support with next steps such as scheduling your biopsy appointment, making a pre-payment, or discussing financial options

You can expect to get a total of 2 to 4 text messages depending on your situation, and you can opt out at any time.

Your healthcare provider has requested that CND check your insurance coverage for the Syn-One Test®.

Your benefits check is now complete.

Get real-time text alerts about your insurance benefits verification for CND's diagnostic tests.

If you have any questions, please contact CND Life Sciences at 480-569-2900 ext. 2
